BESPOKE FASHION  
- WITH A DIFFERENCE

**Angy** is an avant-garde designer and creative dressmaker. She provides an exclusive, bespoke fashion service for individuals and boutiques. She draws on extensive experience to work with her clients to produce personalised designs that are stylish and eye-catching.

**Limited Edition Collections** of cocktail, evening and bridal wear are available to boutiques. These short runs of exclusive designs are manufactured in England, reducing Angy's carbon footprint and supporting local communities. She also welcomes enquiries to create one-off collections or lines for fashion houses, boutiques or sports clubs.

**Stolen Dreams** is a fusion of football and fashion, a unique collection of haute couture designs created from replica strips. It was inspired by the chaos, and ongoing turmoil of top flight football. Each design tells its own tale. None of the outfits is for sale as the collection has been put together to raise awareness of Angy's special, artistic style. It also draws attention to the possibilities for recycling replica shirts, and to Angy's latest project, to develop a range of designer fan wear.
